#### **Educational Program and Tour**

The Board of Directors will attend an educational program related to the Biolac Wave Oxidation process to treat sewer flows at the District's Southland Wastewater Treatment Project. The educational program includes:

1. Presentation of the Biolac Wave Oxidation process at Boyle Engineering offices located at:  
5851 Thile Avenue, Suite 201, Ventura, CA.  
The presentation is expected to begin at approximately 11:30 a.m.; and
2. Tour of the Moorpark Wastewater Treatment Plant located at:  
9550 W. Los Angeles Avenue, Moorpark, CA.  
Tour to begin at approximately 1:00 p.m.

Members of the public are invited to attend the program. For more information please contact the District General Manager, Bruce Buel, at (805) 929-1133.
