- C-3) DIRECTORS' ANNOUNCEMENTS OF DISTRICT & COMMUNITY INTEREST
Receive Announcements from Directors regarding Items of District & Community Interest

Director Eby

It is predicted that there will be no rainfall for the next few months, which is normal. But the temperature is supposed to be less than normal, which may help reduce the draw down of the aquifer.

Director Harrison

There will be the major fundraiser for Hospice, August 2, 2008, at Hearst Castle. The Rotary Club will barbeque for the event. He will be able to obtain tickets for \$75.00. There is a new veterinarian in Nipomo located at the old Quinn Rental store on Sandydale. The open house will be August 2nd.

Director Winn

Director Winn received correspondence from the Planning Department about the Affordable Housing Environmental Impact Report. Copies are available on the back table.

There will be a special meeting of the Water Resources Advisory Council Wednesday, July 2, 2008, at 1:30 p.m. at the San Luis Obispo Library. The issue is to respond to this District's comments on the EIR for the Santa Margarita Ranch cluster development. If a development has more that 500 homes, either an adjoining public agency or the county that is permitting it must certify that they have a 20-year sustainable water supply. Data has not been seen that supports that certification. The principle could affect the Nipomo Community Services District. This District is trying to make sure that there are always appropriate findings to support a 20-year water source.

RESOLUTION NO. 2008-1093
A RESOLUTION OF THE BOARD OF DIRECTORS
OF THE NIPOMO COMMUNITY SERVICES DISTRICT
ACCEPTING EASEMENT AND THE WATER AND SEWER IMPROVEMENTS
FOR TRACT 2732 (NIPOMO OAKS)

Staff had some corrections in the resolution in Item D-3.

The Board asked questions about some of the items. Director Vierheilg suggested that Mid State Bank be changed to Rabobank. He also asked about Item D-5; how much of an incentive is there to purchase a new washer. The rebate is \$150, but the cost of an ultra-low flow washer is approx. \$900.

Director Winn stated that the County has different terminology for its low flow toilets.

Director Trotter said he would like the opportunity to review the directions Mr. Reed will be given, regarding the Blacklake sewer rates.

Director Harrison asked about Item D-8, the number of units requested by the developer is different than the number on the development. Mr. Buel answered that lots 1-24 are building pads. Lots 25 and 26 are open space lots. Lot 27 is a remainder, yet to be developed. The space between Lots 24 and 9 is an access to the future remainder, Lot 27. County Fire determines the adequacy of the fire lane alignments. Call Fire has signed off on the design.

The following member of the public spoke:

Sharon Petrick, NCSD resident, asked if the Board would consider postponing Item D-7 until the Blacklake Committee can meet with the District to discuss the plans.

Upon motion by Director Eby and seconded by Director Harrison, the Board unanimously approved the Consent Agenda, as amended. Vote 5-0.

E. ADMINISTRATIVE ITEMS

00:58:18

E-1) AUTHORIZE NEGOTIATION OF DESIGN AGREEMENT FOR WATERLINE INTERTIE PROJECT

Bruce Buel explained the District received proposals for the design for the Waterline Intertie Project from the firms of Boyle, Cannon, Dee Jaspar and Penfield & Smith. The Board has established this project as top priority. Requests for proposals were mailed May 13, 2008 and proposals were opened June 10, 2008. Four proposals were received. The committee recommended acceptance of Boyle's proposal. The estimate of \$898,801 has been increased to \$920,030 because some additional engineering analyses needed. Boyle's estimate was less than the other engineering firms. The City of Santa Maria has requested a peer-review group.

The Board asked questions of staff.

Director Eby asked if cost of the peer-review group were included in the \$920,000

amount.

E-1) AUTHORIZE NEGOTIATION OF DESIGN AGREEMENT FOR WATERLINE INTERTIE PROJECT (CONTINUED)

Mr. Buel answered that it would be separate at a cost of approx \$5,000 per vendor over the course of the design.

Director Winn asked if the add-ons would have helped the other vendors who submitted proposals to improve their bids. Mr. Buel said that they would not. They were not a part of the original RFP.

Director Winn also asked if the Horizontal Directional Drilling contractor, Dennis True, had performed projects this size. Mr. Buel answered that Mr. True does smaller projects but is quite capable of design review.

Director Harrison asked if the District is responsible for potholing, how many other things is the District responsible for in carrying out this project. Mr. Buel explained that some of the costs are not possible to determine ahead. Director Harrison asked how much this design project is expected to cost in the end. Mr. Buel estimated \$1,000,000.00.

Mike Nunley, Boyle Project Manager for this proposal, stated that if potholing is necessary Boyle would ask the District to have that performed.

Director Harrison asked about the aerial view survey. How can one negotiate with landowners if the District does not know where the project will be? Mr. Buel stated that this is an iterative process. The negotiations will include where the landowners might allow the District to enter.

Director Eby asked if the project would be open trench or HDD. Mr. Buel said it would be horizontal directional drilling, if it is possible.

Jon Seitz, District Legal Counsel, asked if the scope of work sufficient to take the project from preliminary design through final design.

Mr. Nunley answered yes.

There was no public comment.

Board comments:

Director Trotter stated that the Supplemental Water Committee has discussed the project. There are very many unknowns. It is difficult to determine exact numbers.

Director Eby stated that during the evaluation process for the proposals, Boyle Engineering received the highest scoring with the lowest cost.

Directors Harrison and Vierheilg agreed.

Upon motion by Director Eby and seconded by Director Harrison, the Board unanimously agreed to authorize negotiation for an agreement for consideration at the July 9, 2008 Board Meeting. They also authorized to negotiate agreement with Jim Garing, Paul Karp and Dennis True as the Peer Review Team. Vote 5-0.

E-2) CONSIDER WHETHER OR NOT THE WATERLINE INTERTIE PROJECT WILL REQUIRE AN ENVIRONMENTAL IMPACT REPORT

Bruce Buel, General Manager, explained that CEQA and the District's Environmental Review Guidelines require the District to make an environmental determination on non-exempt discretionary projects.

There was no public comment.

Douglas Wood, of Douglas Wood Associates, stated that an Initial Study has been completed and reviewed by staff and the supplemental water supply committee. Mr. Wood's staff will be assisting the District in the preparation of the EIR. An Environmental Impact Review (EIR) fully informs the public what the project entails. The Initial Study will assist in the preparation of an EIR to focus the EIR on the effects determined to be potentially significant, identify any impacts determined to not be significant, describe the anticipated extent of analyses within the EIR and to assist the public and other responsible agencies in their evaluation of the proposed project and their formulation of initial environmental concerns in response to the Notice of Preparation.

Board questions:

Director Trotter asked if the Santa Maria adjudication had similar concerns.

Mr. Wood stated the Initial Study addresses issues of potential growth inducement within the Nipomo area. There will be a detailed assessment of the potential impacts to the Santa Maria Groundwater Basin as a result of the purchase of the supplemental water.

Jon Seitz, District Legal Counsel, stated that the Nipomo groundwater basin is no longer referred to as a sub-basin but one groundwater basin that is subject to separate management areas. The stipulating parties are committed to support this project.

A Notice of Appeal has been filed. The content is not known.

Director Winn asked about Page V-2 of the Initial Study concerning Land Use and Planning. Phase I of this project is meant to provide no new water for new growth. The project is identified as a 6200 acre-foot project and intended in the first two phases to get the groundwater back to zero.

Doug Wood, identifying three areas of water will serve 1) existing customers, 2) additional 100 acre-feet will serve vacant areas within the District, 3) to serve areas within the Sphere of Influence. The Sphere of Influence areas may be considered growth-inducing. The EIR provides the opportunity for the public to be informed.

Director Eby stated that an EIR is just a disclosure document not saying that you will build something. It says these are the potential impacts and the mitigations available.

Mr. Wood stated that the EIR describes a 6,200 acre feet per year (AFY) project at this point because the pipeline being proposed will accommodate 6200 AFY water.

Upon motion by Director Eby and seconded by Director Vierheilg, the Board unanimously agreed to authorize that an Environmental Impact Review be prepared on the Waterline Intertie Project and to authorize the filing of the Notice of Preparation and the circulation of the Initial Study as part of the scoping process for the EIR. Vote 5-0.

E-3) AUTHORIZE SUBMITTAL OF COMMENT TO SAN LUIS OBISPO COUNTY REGARDING ENVIRONMENTAL REVIEW OF PROPOSED PERRETT DETACHMENT

Bruce Buel, General Manager, reviewed the request from the SLO County Planning Department for comment on the petition to detach 4,735 acres of the Suey Ranch owned by H. D. Perrett and Carol Perrett from SLO County and attach those parcels to Santa Barbara County.

Director Vierheilig asked what the financial impacts on San Luis Obispo County would be.

Jon Seitz, District Legal Counsel, suggested the letter to the County needs to state that the District is water, sewer, solid waste and street-lighting service agency. Also, the property in question is outside the District and the District has no intention of serving that area. Will there be water impacts on the Mesa? The County should require the applicant to conduct a study.

There was no public comment.

Director Eby stated that an environmental determination is needed. This detachment removes impediment to growth. It puts the jurisdiction of development of this property outside of San Luis Obispo County in an area that overlies water that flows ultimately to the District's water supply. The Santa Maria River runs through it and is a potential and known water source for the NCSD. Any development there could have harmful effects on the District's water supply.

Upon motion by Director Eby and seconded by Director Vierheilig, the Board unanimously agreed to authorize the President to communicate a letter to SLO County regarding the District's concern and ask for an environmental determination before the County makes any decisions on the detachment Perrett petition. The letter should also address the water impacts on the District. Vote 5-0.

E-7) DISCUSS MECHANICS OF PROPOSITION 218 PROTEST PROCEEDING RE: BLACKLAKE AND TOWN WATER FUND MERGER

Bruce Buel, General Manager, stated that this item is to discuss the mechanics of the Proposition 218 protest proceeding. A protest hearing is scheduled for July 23, 2008. He explained Director Winn has proposed a different look at the calculations presented to the public. Copies have been made available to staff and the public.

Director Winn spoke about the proposal.

Director Harrison stated that the District hired a consultant to determine an equity charge for the tie-in of the Blacklake water system. If the Prop 218 hearing fails, then the District should hire another consultant to determine a fair and equitable solution.

Nipomo Community Services District
REGULAR MEETING
MINUTES

Director Trotter stated that there is a strong feeling that the merger occurred in 1993. If a consultant is hired, he will likely come up with a balance of equity just as Mr. Reed did. There is no way to resolve in court. Blacklake does not have the money.

E-7) DISCUSS MECHANICS OF PROPOSITION 218 PROTEST PROCEEDING RE: BLACKLAKE AND TOWN WATER FUND MERGER (CONTINUED)

Director Winn stated that Blacklake was annexed - not merged - in 1993. There was no mingling of funds. The water system was not maintained properly, but the residents continually argued against rate increases to contribute to the maintenance funds.

Director Trotter stated that the people from Blacklake will probably accept the \$756 figure listed in the outline distributed by Director Winn.

Director Harrison and Director Eby would like to know what the Town Division rates would be if the buy-in charge were less than the \$1,672 amount originally suggested.

The following member of the public spoke:

Bill Nelson, NCSD resident – stated that the only solution is a merged system. It is a win-win for everyone. He suggested waiting until after the Protest Hearing before doing another analysis. If the protest is successful, the Board has the option to make another proposal.

Director Winn stated that it is not an option that Blacklake is merged without paying something. It must be a fair number for the Town Division also.

Upon motion by Director Harrison and seconded by Director Eby, the Board directed staff to continue with the July 23, 2008 Protest Hearing and allow it to run its course. Vote 4-1 with Director Winn voting no.

YES VOTES	NO VOTES	ABSENT
Directors Harrison, Eby, Vierheilg, and Trotter	Director Winn	None

Director Harrison made a motion and Director Eby seconded the motion for the Board to direct staff to contact Reed and have him establish the cost to the Town's residents if there is a difference in the cost with or without the merger at each of the three figures discussed (\$1,672, \$928, and \$756) and any other number that would be a break-even amount. Discussion ensued. Director Eby stated that he thinks if the Blacklake residents knew that it would burden the Town Division residents if the buy-in charge was not equitable, the Blacklake residents would not protest. Director Vierheilg would like to wait until after the protest hearing before spending the money for Reed to do the analysis. Director Trotter stated that he would vote for the study to show harmony. Vote 4-1 with Director Vierheilg voting no.

Item 4: The Board took action on a 3-1 vote, with Director Harrison dissenting, to retain the firm of Hammer, Jewel and Associates, real property negotiators, with a preliminary budget of \$20,000 to negotiate the purchase of the easements referenced in the agenda. The Board also authorized the District to retain Reeder, Gilman, Million to provide the actual appraisal work with a budget of \$10,500.

02:55:18

E-4) DISCUSS PROCESS FOR RELOCATION OF WATER MAINS IN THOMPSON AND TEFPT TO FACILITATE COUNTY DRAINAGE PROJECTS

Bruce Buel, General Manager, explained that the county is re-constructing two drainage structures in Haystack Creek. The District's water mains need to be relocated. The County was scheduled to award their contract for the drainage work to D-Kal Engineering, Inc. on June 24, 2008. The District needed to get the request for bids advertised by a certain time to meet the advertising deadline. Jon Seitz, District Legal Counsel, stated that bids can be opened July 8th for the Board to award on July 9, 2008. There was no public comment.

Upon motion by Director Vierheilg and seconded by Director Eby, the Board unanimously agreed to ratify the processing of bids. Vote 4-0 with Direct Trotter absent.

E-5) REVIEW STAFF'S PROPOSED PROJECT DEVELOPMENT GUIDELINES FOR NCSD PROJECTS

Bruce Buel, General Manager, described the proposed Project Development Guidelines for District public works projects. A sample was included in the packet. The Board discussed some suggested changes. The Board directed Mr. Buel to make edits and okayed to bring back on the consent calendar.

03:20:59

E-6) SET FY2008-09 APPROPRIATIONS LIMIT AND ADOPT FY 2008-09 BUDGET

Lisa Bognuda, Assistant General Manager, presented the budget to the Board. She corrected the staff report. Fund 300 should have read Fund 400. The Board discussed Fund 140 in the staff report. It was suggested that the staff should not have stated that it is estimated that the cash reserves are not sufficient to cover the budgeted costs for the entire year. The word "estimated" should be removed. The Board discussed how LAFCo determines its fees to charge the districts.

The meeting was opened to a Public Hearing.

There was no public comment. The Public Hearing was closed.

Upon motion by Director Vierheilg and seconded by Director Harrison, the Board unanimously adopted Resolution 2008-1094 adopting the budget. Vote 4-0.

Director Vierheilig
What is the Fugro outcome for the Pasquini property: *Mr. Buel will report in the middle of July.*
What is happening with the proposed Miller Park? It seems to be falling on hard time with County Real Property Management. Perhaps some lobbying would be helpful.
Director Winn answered that he will be meeting with Supervisor Achadjian Thursday, June 26, 2008, concerning the park.

Director Winn
He asked if the Regional Water Quality Control Board was getting irritated about the wastewater treatment facility progress. Mr. Buel answered yes and that he is pushing Fugro along as fast as possible.
