REFUSE COLLECTION BY NCSD

ITEM

Review the possibility of NCSD providing refuse collection and requesting LAFCO for the latent powers of refuse collection and disposal

BACKGROUND

At a previous meeting, your Honorable Board directed staff to look into the possibility of NCSD providing refuse collection for the community.

District staff has requested information from the refuse company on their operations within the Nipomo area. Mr. Tom Martin from the South County Sanitation Service has been invited to the meeting to discuss their operation and answer any questions the Board may have.

RECOMMENDATION

You may wish to appoint a sub-committee or direct staff to prepare the appropriate documents to proceed in this matter.

MONTECITO VERDE II SEWER CONNECTION

ITEM

Review engineering design to connect Montecito Verde II on-site sewer system to the District's area-wide sewer system.

BACKGROUND

Montecito Verde II subdivision was constructed in the 1980's, prior to the District's area-wide sewer system being built. The waste disposal system at Montecito Verde II consists of five on-site septic tank disposal systems. Over time, the concrete facilities have been degraded due to the hydrogen sulfide gases developed from septic tank disposal systems. The District has received correspondence from the Water Quality Control Board requesting that Montecito Verde II connect to the District's sewer system. Proposals were requested to design a connector system. Engineering Development Association (EDA) was given the contract to design the system. EDA has proposed a number of concepts for connecting the Montecito Verde II system to the District system. EDA will review these concepts with your Honorable Board.

The District is always looking for ways to eliminate sewage lift stations for reduction of operation and maintenance costs and move to a gravity system. EDA has made a proposal to eliminate the Nipomo Palms sewer lift station as part of their design.

The following are alternative ways to fund this project:

- Community Block Grant (CBG) Funds {Construction of facilities within PSHH project}
- Using the value of the land where the existing disposal systems are with the assistance of People's Self Help Housing (who will own the property) to fund the project
- Assessment District proceedings
- District participation
- Combination of the above

This year the District applied for a CBG funding but was not funded. The District is reapplying for next year's funding.

RECOMMENDATION

After your Honorable Board has reviewed the presentation from EDA, staff may be directed to proceed in one or more of the above options. The final design, plans and specifications would need to be completed before going out to bid for construction.

TEFFT STREET WATER LINE DESIGN

ITEM

Request proposals to design a new water line in Tefft Street

BACKGROUND

The 1995 Boyle Engineering Water and Sewer Master Plan indicated that additional water line crossings need to be constructed across the freeway to Thompson Ave. to improve distribution of the District water system. The District has installed the Oakglen-Mallagh water line across Nipomo Creek and improvements in Thompson Ave. and Tefft Street to a new water storage facility. The concept from the 1995 Boyle Master Water Plan is to install a similar water line south of Tefft Street to Thompson Ave.

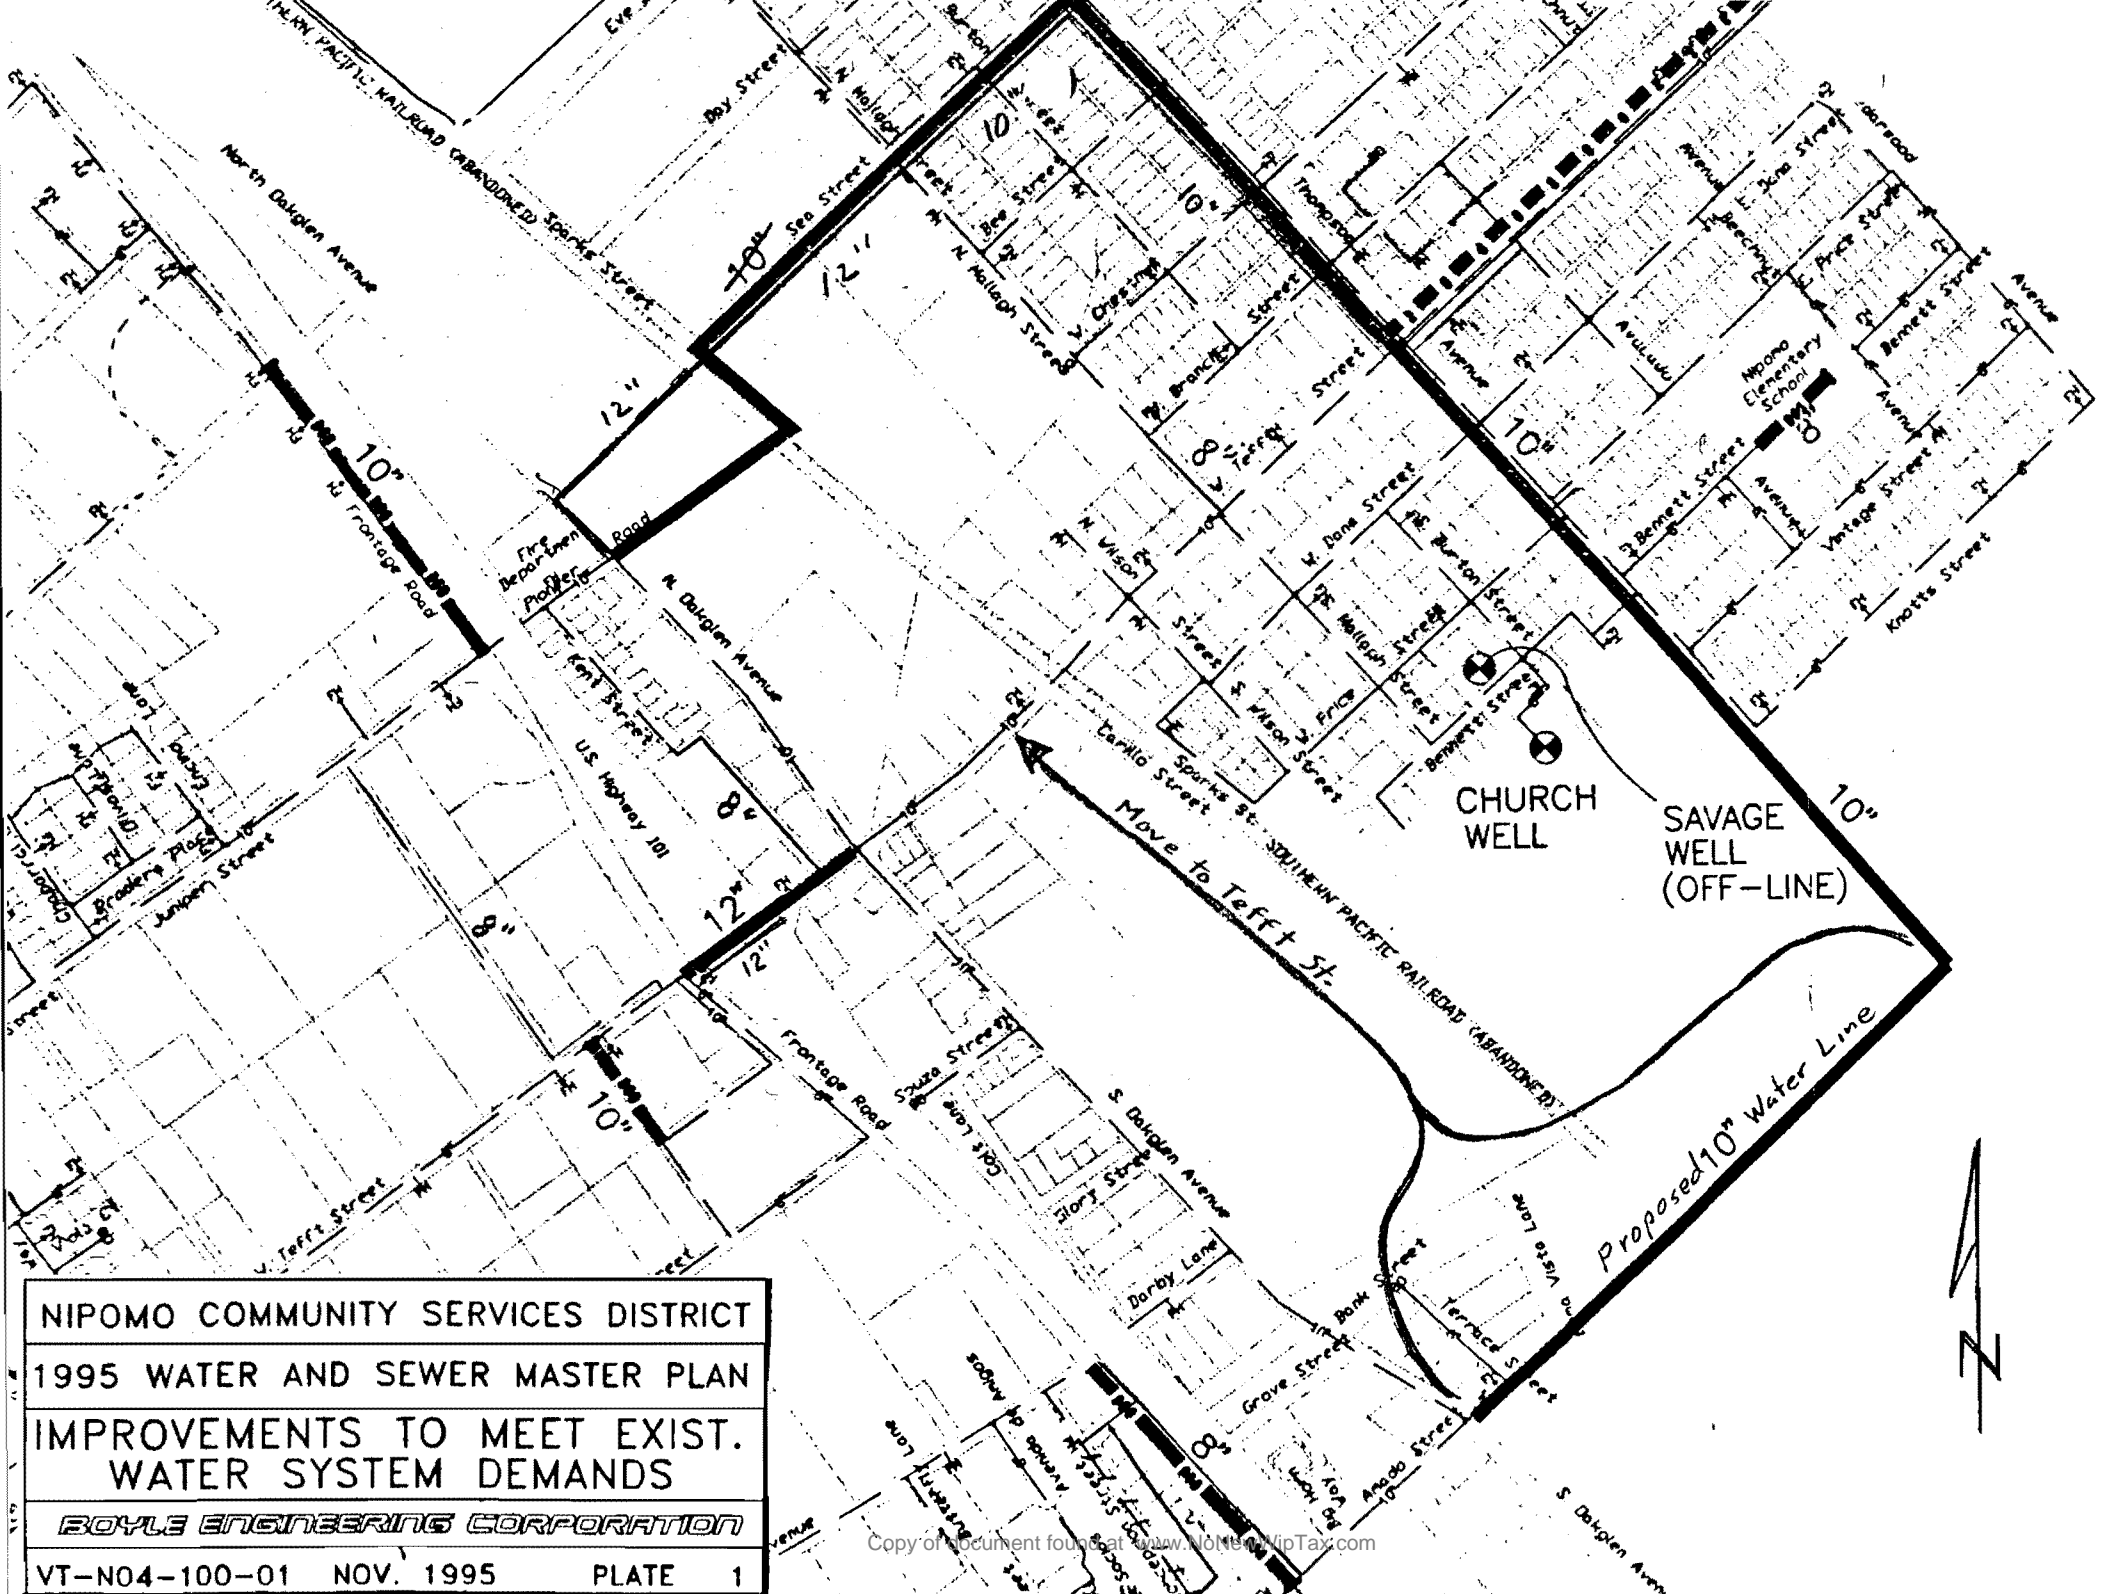

It is proposed that the southerly waterline be relocated as a parallel water line in Tefft St. to increase the flow to and from the Olde Towne to the Mesa. This location would eliminate a Nipomo Creek crossing, therefore, a Corp of Engineers and Fish and Game permit would not be required. The water line could be hung on the Nipomo Creek Bridge. This location not only improves the flow across the east-west direction, it also increases the capability of the water line in Tefft Street and provides capacity for the high school water supply.

It is proposed that the District request proposals to design the water line in Tefft St. with the sizing of the line to be determined by Boyle Engineering's update of the Water and Sewer Master Plan.

The design of the water line this fiscal year will assist in fast tracking the construction of this line in mid 2001. Funds for construction will be incorporated in the 2001-02 FY. By processing in this manner, the water line could be constructed before the county's schedule paving of Tefft St. in 2002 and the opening of the new high school.

RECOMMENDATION

Staff recommends that your Honorable Board authorize staff to request proposals to design the Tefft Street water line improvements.

REQUEST FOR PROPOSAL

DESIGN APPROX. 8500 FEET OF WATER TRANSMISSION MAIN

- I. The Nipomo Community Services District is requesting proposals to design approximately 8,500 ± feet of 12 inch and 16 inch water line in Tefft Street from the Dana School to Thompson Ave. The proposed improvements are shown on the attached map.
- II. The following should be considered in your proposal.
 1. The new water lines will parallel and cross existing lines.
 2. The new lines will be tied into existing District water lines at approx. 4-5 locations.
 3. A report to comply with CEQA. (Construction is planned for the 2001-02 Fiscal Year.)
 4. Make three presentation to the District Board of Directors
 1. CEQA findings
 2. Final design
 3. Bid results for construction
- III. Your proposal should include the following:
 1. Brief history & experience of your firm in designing similar projects.
 2. Time schedule to complete plans and specifications, CEQA requirements.
 3. Your engineering cost estimate to develop the plans, specifications and CEQA report.
 4. Cost estimate for construction, survey, and inspection of the proposed improvements.
 5. Other items you wish to include.
- IV. The District will supply:
 1. Plans of the District's existing water lines.
 2. The 12" and 16" pipeline sizes are estimates and may be revised on completion of the District's Water Master Plan Update due Spring 2001.
 3. Answers to most questions.

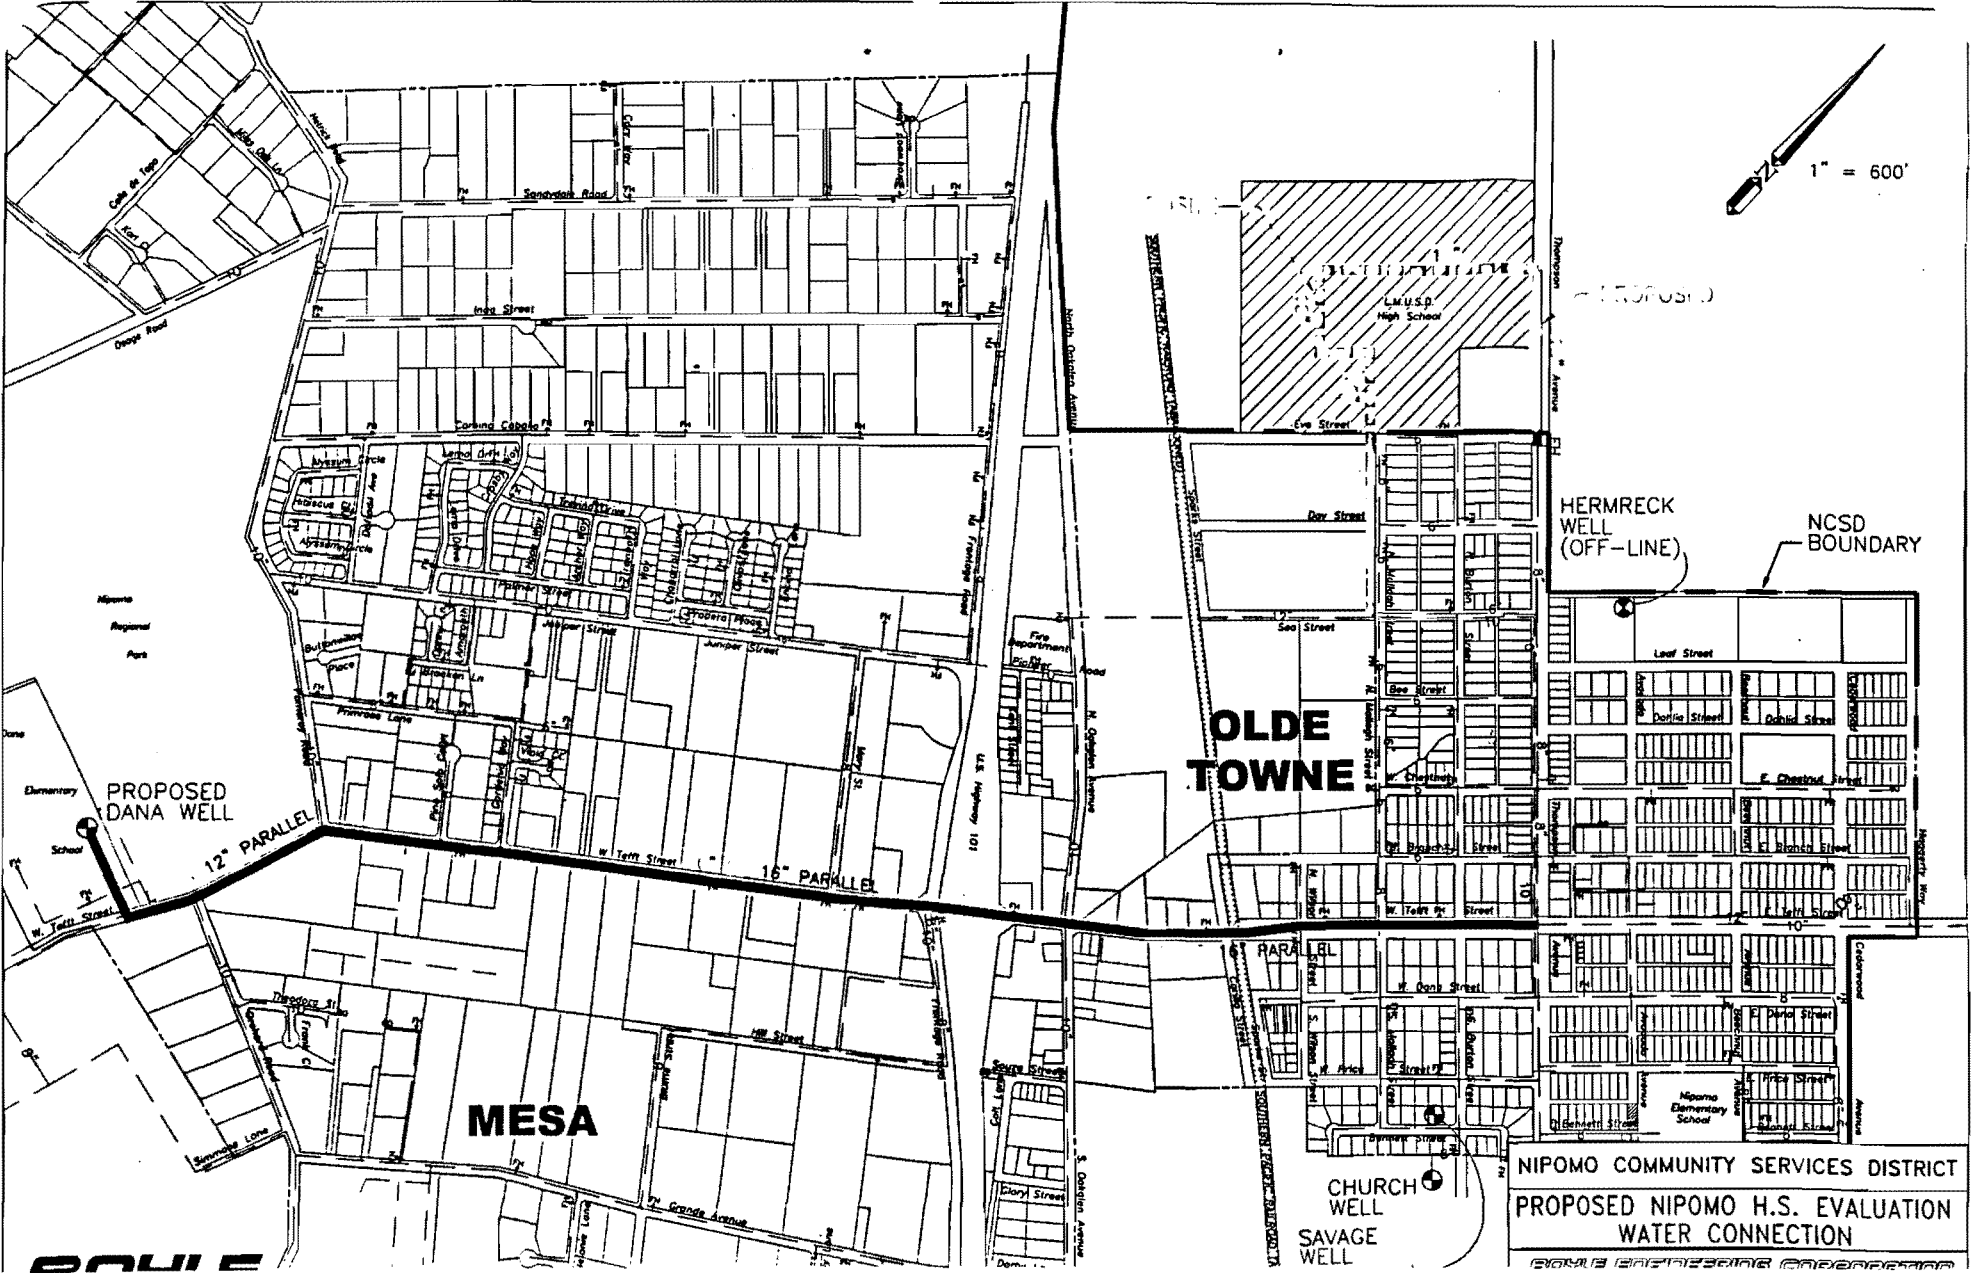

Your proposals should be submitted to the District by noon on January 24, 2001.

ELECTION OF BOARD OF DIRECTORS OFFICERS

ITEM

Election of Board President and Vice President

BACKGROUND

Paragraph 1.4 of the adopted by-laws of the Board of Directors requires that at the last meeting of the calendar year, the Board shall elect a President and a Vice-President for the upcoming year. The elected terms of office shall commence January 1st immediately following the election.

The by-laws do not prevent a President from serving a second term although historically, the position has been rotated among the Board members.

RECOMMENDATION

Staff recommends that the presiding President administer the election of the officers of the Board of directors.

The following is the recommended procedure:

- Nominations taken for the President of the Board.
- Vote taken for the President
- Nominations taken for the Vice President of the Board
- Vote taken for the Vice President

These officers will administer the January 3, 2001, Board meeting. At that time, the President may appoint ad hoc committee members, as deemed necessary or advisable with respect to administration of the District.

The following were the established committees for the year 2000. These committees will be up for appointment or reappointment in January for the year 2001.

<u>Committees for 2000</u>	<u>Present Member</u>	<u>Present Alternate</u>
Nipomo Community Advisory Committee	Mike Winn	Al Simon
Water Resources Advisory Committee	Doug Jones	Bob Blair
Chamber of Commerce	Dick Mobraaten	Al Simon
NCAC Water Committee	Bob Blair	Dick Mobraaten

These committees require two (2) members.

EARLY RETURN TO WORK POLICY

ITEM

Adoption of an Early Return to Work Policy

BACKGROUND

The District purchases its Workman's Compensation Insurance through the State Compensation Insurance Fund. State Compensation Insurance Fund recommends that the District establish an Early Return To Work Program with a written policy. State Compensation Insurance Fund states the following:

"Programs which help limit loss exposure are an essential part of your company's cost containment efforts. Once such program that is beginning to gain wide acceptance is called "Early Return to Work." It is, essentially, a new way of looking at the age-old disability problem. It simply consists of devising ways to bring injured employees back to work as soon as possible after an injury, then carefully monitoring their progress until they return to full duty. Early return to work programs empower employers to take control of their workers' compensation costs and their injured workers."

On previous occasions the District has provided modified work duties to employees with on-the-job injuries even though a written policy did not exist.

The attached Draft Resolution is for review purposes.

RECOMMENDATION

Staff recommends that your Honorable Board adopt the following:

1. Motion, second and voice vote, to circulate this policy to District employees and ask for their comments to be received by the General manager no later than December 22.
2. Place the Resolution on the January 3, 2001 Agenda for consideration. The Board may consider the employee comments at that time and make any necessary modifications.

EXHIBIT "A"

EARLY RETURN TO WORK POLICY

NIPOMO COMMUNITY SERVICES DISTRICT recognizes the need to provide temporary modified work to employees who are unable to perform their regular duties due to industrial illness or injury. In this regard, it is our intent to implement an Early Return-to-Work program designed to return the injured employee to work in a physically appropriate job as soon as the treating physician deems it medically feasible, whenever possible.

This policy applies to all employees. Due to the limited amount of modified/alternative work available, employees are assigned on a "first come, first served" basis, to appropriate positions as available.

The purpose of this program is: 1. To assist employees in the transition from disability to full recovery while continuing to be a productive part of the work force, while minimizing the deterioration of the employee's work skills, health and attitude that may result from prolonged work absence; and 2. To provide management with a constructive program to reduce the cost of Worker's Compensation and to minimize the loss of productivity.

_____ will be responsible for development and implementation of the Early Return-to-Work program in consultation with State Fund's Early Return-to-Work Coordinator.

_____ will determine the employee's eligibility for the program, placement in modified work, record keeping, and monitoring the progress and full return to work of the employee(s) in the Early Return-to-Work program.

The modified/alternative work will be implemented immediately to avoid lost time and wages. The temporary/modified work assignment is not considered to be part of the regular staffing pattern. The employee must have a medical clearance authorization slip from the attending physician specifying work restrictions and abilities.

ERTW program participants are encouraged to schedule physical therapy and doctor's appointments around their work schedules to avoid loss of earning power. If this cannot be arranged, appointments should be scheduled at the beginning or end of the work day. All appointments requiring time away from work must have written verification of time in and out of the facility to present to their supervisor.

If employee health status changes, it must be reported immediately to their supervisor and management.

While on the temporary modified/alternative work program, employees who have experienced an on the job injury will be evaluated at 30 days or when medically stationary, whichever occurs first.

As long as work can be provided, there is no right of refusal without jeopardizing benefits and entitlements.

A modified job offer will be made only when the work is available and of benefit to the company. The modified job, if offered, will end with the date the employee receives a regular release, and may be ended at any time if there is no longer a need for modified work. Each case will be assessed individually based on need. Wages and hours will not necessarily be the same as that of the regular job.

APPROVAL OF TRANSFER OF FUNDS FROM THE
TOWN SEWER DIVISION AND BLACK LAKE WATER DIVISION
TO THE REPLACEMENT FUND ACCOUNTS

ITEM

1. Request to transfer \$400,000.00 from the Town Sewer Division Operating Fund to the Town Sewer Replacement Fund
2. Request to transfer \$400,000.00 from the Black Lake Water Division Operating Fund to the Black Lake Water Replacement Fund.

BACKGROUND

On June 9 and July 21, 2000, the Board of Directors held study sessions with Perry Louck, CPA to review his recommendations for the Water and Wastewater Rate Study Update. On July 21, 2000, Mr. Louck asked for your Honorable Board's direction in order to complete his study. Mr. Louck requested the Board give direction on two points:

1. What level of funding of replacement should the rates be based upon
2. Due to excess operating reserves in the Town Sewer Division and the Black Lake Water Division, would the Board direct a transfer of these funds to the replacement funds to mitigate the rate increases, if any, in these Divisions.

At the July 21, 2000, study session the Board directed Mr. Louck to complete the study based upon 100% funding of replacement and directed him to include in the study the transfer of Town Sewer Division and Black Lake Water Division to the replacement funds.

On November 17 and 29, 2000, public hearings on the rate increases were held and an Ordinance was adopted based upon the Water and Wastewater Rate Study Update.

RECOMMENDATION

Adoption of attached Resolution authorizing the transfer of funds from the Town Sewer Division and the Black Lake Water Division to the Replacement Fund Accounts.

RESOLUTION 00-transfer

**A RESOLUTION OF THE BOARD OF DIRECTORS
OF THE NIPOMO COMMUNITY SERVICES DISTRICT
APPROVING THE TRANSFER OF OPERATING FUNDS FROM THE TOWN SEWER DIVISION AND BLACK
LAKE WATER DIVISION TO THE REPLACEMENT FUND ACCOUNTS**

WHEREAS, the District commissioned Perry R. Louck, Certified Public Accountant, to perform a WATER AND WASTEWATER RATE STUDY UPDATE (herein the STUDY); and

WHEREAS, two study sessions were held on June 9 and July 21, 2000 to review recommendations of Perry R. Louck, CPA. On July 21, 2000, the Board directed Mr. Louck to complete his STUDY based upon the recommendations 1) transfer excess operating funds from the Town Division Sewer Division and the Black Lake Water Division to the Replacement Fund Accounts and 2) fund replacement at 100%.

WHEREAS, the STUDY recommended that the operating reserve requirements for the Town Water Division and Black Lake Water Division be 50% (six months) of variable operating costs and the operating reserve requirements for the Town Sewer Division and Black Lake Sewer Division be 25% (four months) of operating costs, net of the replacement reserve requirements; and

WHEREAS, the Staff Report and STUDY was received and filed by the Board of Directors on November 17, 2000; and

WHEREAS, the adopted rate increases were based upon the STUDY which included the Board recommendations of completing the transfer of Town Sewer Division and Black Lake Water Division funds.

NOW, THEREFORE, BE IT RESOLVED, DETERMINED, AND ORDERED by the Board of Directors of the Nipomo Community Services District, San Luis Obispo County, California, as follows:

1. \$400,000.00 from the Town Division Sewer Operating Fund should be transferred to the Town Division Sewer Replacement Fund.
2. \$400,000.00 from the Black Lake Division Water Operating Fund should be transferred to the Black Lake Division Water Replacement Fund.

ACCEPTING SEWER IMPROVEMENTS FOR
DRUMM LANE
MITCHELL

Upon completion of a developer's project, the District accepts improvements of the project when all requirements are met. The developer (Mitchell) has installed sewer improvements on Drumm Lane and has met the District's conditions:

- Installed the improvements,
- Paid associated fees
- Provided the necessary paperwork, including the Offer of Dedication and the Engineer's Certification.

Staff recommends that your Honorable Board approve the attached Resolution 00-accept, accepting the sewer improvements for Drumm Lane.
