WATERLINE INTERTIE PROJECT UPDATE

ITEM

Mike Nunley of AECOM Engineering re Waterline Intertie project status [NO ACTION REQUESTED].

BACKGROUND

Mike Nunley is scheduled to summarize the attached report.

RECOMMENDATION

Staff recommends that your Honorable Board receive the presentation and ask questions as appropriate.

August 18, 2010	
	Peter Sevcik, Jon Hanlon, Josh Reynolds, Jim Froelich Kirk Gonzalez Waterline Intertie Project – Design Phase Status Repor Michael K. Nunley, AECOM

The Project Team has completed the following work items this month:

- AECOM submitted the public lot application for the reservoir / pump station site to the County.
- 2. AECOM provided the District with the final submittal for Bid Package #3 (Blosser Road Water Main and Flow Meter) plans and technical specifications.
- The project team compiled comments on the Streambed Alteration Agreement drafted by California Department of Fish and Game (CDFG), sent a response, and requested a follow-up meeting to discuss conditions of the permit.
- AECOM is continuing work to update the construction cost opinion to reflect the 90% designs for Bid Packages #2, #3, and #4.
- 5. AECOM has updated the table of project permits (attached).

Schedule

The Project Schedule is attached and has been updated to reflect the current project status.

Budget Status

As shown on the attached Design Budget and Invoice Summary, our fee earned is slightly ahead of the work completed under Task 3.

Yours Sincerely,

Mill K. Any Michael K. Nunley, PE

Notes:

ENR CCI: March 2008 = 8109

(1) Costs are from the December 2007 Water and Sewer Master Plan (Cannon).

(2) Engineering and Construction Management were originally presented as a "lump sum" amount

(3) Includes material testing, construction staking, and environmental monitoring

(4) Estimate only. Property allowance not included prior to April 2009 estimate.

(5) These work items were added to relieve high pressures on Mesa as an alternative to service pressure regulating valves (See Tech Memo 9). One PRV station at Maria Vista was required initially. Four are recommended for revised project. This was design Budget Revision #1.

(6) Based on review of record drawings, this pipeline is already a 10-in main

(7) Initial estimate incorporated Master Plan project costs. Revised estimate includes higher unit costs to reflect paving 1 traffic lane, per County standards

(8) Updated unit costs include higher costs to reflect paving 1 traffic lane, per County standards

(9) Contingency was modified to 25% which is more appropriate for concept design phase.

(10) To be provided by CM team - Has not been revised to reflect additional work for construction management of Oakglen, Darby, and Orchard extensions.

- (11) Contingency was modified to 20% which is more appropriate for 30% design phase.
- (12) Estimate provided by District staff.

(13) Item added during 60% design for potential future pipe cleaning launch station. Cost for potential future receiving station was added to item #7 (pump static

(14) Reduced at 12/9/2009 Board Meeting.

(15) Added to January 2010 cost opinion per District

(16) Estimate updated by District staff 4/21/10.

(17) Updated based on Board action on 3/24/10.

not inlcuded = Item was not included in previous construction cost opinions, but was added to provide a complete assessment of anticipated project costs.
