**AGENDA ITEM**  
**D-3**  
**DECEMBER 11, 2013**

**SERVICE REQUEST – 545 GRANDE AVENUE  
18 LOT RESIDENTIAL DEVELOPMENT**

**ITEM**

Consider request for water, sewer and solid waste service (Intent-to-Serve Letter) for an 18 lot residential development on Grande Avenue at Avenida de Amigos, pursuant to District's current water allocation ordinance [RECOMMEND CONSIDER INTENT TO SERVE LETTER AND APPROVE].

**BACKGROUND**

The Board considered a request for water, sewer and solid waste service for 545 Grande Avenue, APN 092-142-034, an 18 lot residential development (based on the District's definition), on June 12, 2013 and authorized staff to issue an Intent-to-Serve (ITS) letter for the project. Staff issued the ITS letter and the project applicant, Grande Nipomo, LLC, represented by Rudy Bachman, returned a signed copy of the letter on September 30, 2013, not within 30 days of issuance as required. Thus, the Intent-to-Serve letter is no longer valid.

The District received a new application for water, sewer and solid waste service for the project on November 13, 2013. The application is the same as the project that the Board previously approved.

The project will consist of 17 single family parcels, and 1 common area parcel. The existing 1.18 acre parcel is zoned Residential Multi-Family and the District does not currently provide water, sewer or garbage service for the parcel. A Water Demand Certification for the new residential units of the project was included with the application.

All parcels, existing and planned, will be required to obtain water, sewer and solid waste service in compliance with current District standards. Any existing well(s) on the property will not be utilized to provide domestic water service to any part of the project.

The project is subject to the District's current annual water-year allocation limits (32.5 acre-feet) per District Ordinance Section 3.05.040. Pursuant to current Ordinance, the requested residential water allocation for the project is 8.2 acre-feet per year (17 x 0.48) per Section 3.05.060. Attachment C is the Water Allocation Accounting Summary for Water Years 2012-2013 and 2013-2014. Water for the project was previously allocated by the Board and thus no additional allocation is required.

### FISCAL IMPACT

Water and sewer capacity fees will be based on the domestic meter size and irrigation meter size requested for the final County approved project as well as CAL FIRE's fire service requirements. Assuming a total of seventeen (17) 1 inch water meters for combined fire sprinkler/indoor use water service, one (1) 1 inch irrigation water meter, and seventeen (17) sewer connections, the estimated fee deposit for the project is \$485,206 less a credit of \$94,670 paid by the previous owner for a net amount of \$390,536 based on the current District fee schedule.

### RECOMMENDATION

Staff recommends that the Board approve the Applicant's request for an Intent-to-Serve letter for the project with the following conditions:

- Project shall obtain solid waste, sewer and water service for all parcels.
- Water allocation for the project in the amount of 8.2 AF is phased over a 2 year period with 4.2 AFY (8 units) in Water Year 2012-2013 and 4.0 AFY in Water Year 2013-2014.
- Each new parcel shall be served by a single one (1) inch meter and backflow assembly for indoor use and fire sprinkler service, if approved by CAL FIRE of SLO County.
- A separate one (1) irrigation meter shall be provided for the new common lot parcel. Irrigation meter capacity charges are applicable.
- CAL FIRE of SLO County must approve the development plans prior to District approval. Fire capacity charges are applicable if dedicated fire service laterals are required.
- Record a restriction, subject to District approval, on the property prohibiting the use of well(s) to provide water service to any parcel within the Project.
- Properly abandon any existing groundwater wells and provide documentation to District.
- Record a restriction, subject to District approval, on all parcels prohibiting use of self-regenerating water softeners.
- Comply with District water conservation program.
- Pay all appropriate District fees associated with this development.
- Applicant shall provide the District with a copy of County application approval and County project conditions of approval.
- Enter into a Plan Check and Inspection Agreement and provide a deposit.
- Submit improvement plans in accordance with the District Standards and Specifications for review and approval. Applicant shall provide plans consistent with current District Standards and based on the proposed lot configuration.
- Any easements required for water and sewer improvements that will be dedicated to the District shall be offered to the District prior to final improvement plan approval.
- Any easements required for private water and sewer laterals shall be recorded prior to final improvement plan approval and shall be subject to District approval.
- All water and sewer improvements to be dedicated to the District shall be bonded for or otherwise secured in the District's name.
- A Will-Serve letter for the Project will be issued after improvement plans are approved and signed by the District.
- Applicant shall make a non-refundable deposit ("Deposit") at the time the District issues a Will Serve Letter in an amount equal to the then calculated Fees for Connection.

- Fees for Connection shall be calculated and owing as of the date the District sets the water meter(s) to serve the affected property from which the amount of the Deposit shall be deducted.
- Construct the improvements required and submit the following:
  - Reproducible "As Built" - A mylar copy and digital format disk (AutoCAD) which includes engineer, developer, tract number and water and sewer improvements
  - Offer of Dedication
  - Engineer's Certification
  - Summary of all water and sewer improvement costs
  - Copy of recorded Covenants, Conditions, and Restrictions (CC&R's), acceptable to the District, that include provisions for maintenance of common areas and formation of property owners' association that is responsible for payment of all costs related to common parcel irrigation meters and common parcel sewer line.
- The District will set water meter(s) upon proof of a building permit from the County of San Luis Obispo, the District's acceptance of improvements to be dedicated to the District, if applicable, and the final payment of all charges and fees owed to the District.
- This letter is void if land use is other than residential use as defined by the District.
- Intent-to-Serve letters shall automatically terminate on the first to occur:
  - Failure of the Applicant to provide District with written verification that County application for the Project has been deemed complete within two hundred forty (240) calendar days of the date the Intent-to-Serve Letter is issued; or
  - Three (3) years, from date of issuance. However, Applicant shall be entitled to a one-year extension upon the following conditions:
    - Applicant makes written application for the extension prior to the expiration of the Intent-to-Serve Letter.
    - Applicant provides proof of reasonable due diligence in processing the Project.
    - Applicant agrees to revisions of the conditions contained in the Intent-to-Serve letter consistent with then existing District policies.
- This Intent-to-Serve letter shall be subject to the current and future rules, agreements, regulations, fees, resolutions and ordinances of the District.
- This Intent-to-Serve letter may be revoked, or amended, as a result of conditions imposed upon the District by a court or availability of resources, or by a change in ordinance, resolution, rules, fees or regulations adopted by the Board of Directors.
- The District reserves the right to revoke this "Intent-to-Serve letter at any time.
- The Applicant shall provide a signed copy of the Intent-to-Serve letter within thirty (30) days of issuance.

## WATER DEMAND CERTIFICATION

Supplement to Intent-to-Serve/Will Serve Application

### Definitions

(Please note – these definitions do NOT reconcile with standard SLO County Planning department definitions)

**Multi-family dwelling unit** – means a building or portion thereof designed and used as a residence for three or more families living independently of each other under a common roof, including apartment houses, apartment hotels and flats, but not including automobile courts, or boardinghouses.

**Two-family dwelling units (duplex)** – means a building with a common roof containing not more than two kitchens, designed and/or used to house not more than two families living independently of each other.

**Single-family dwelling unit** – means a building designed for or used to house not more than one family.

**Secondary dwelling units** – means an attached or detached secondary residential dwelling unit on the same parcel as an existing single-family (primary) dwelling. A secondary unit provides for complete independent living facilities for one or more persons.

### Commercial Projects

Commercial projects are exempt from Water Demand Certification; however, low water-use irrigation systems and water conservation best management practices are required. The dwelling component of Mixed-Use projects (e.g. commercial and residential), are required to provide Water Demand Certification for the dwelling unit portion of the project.

### Non-Commercial Projects

Water Demand Certification is required for all non-commercial projects and for the dwelling units of Mixed-Use. Certification must be signed by a licensed Engineer/Architect.
