Dear Glen Britten:

Thank you for the information this morning.

As we talked about I am sending this letter to request the state well number, reference point elevation, common name and well level data information on file from the people who have released the information in the mailing in 1993. The location of interest is T12N and south to the county line and R34W and West to the Coast line. I am using this data to verify the accuracy of the new DWR report and other water reports in this area.

Thank You

John Snyder
