**Santa Barbara County Water Resources Report
2000
Errata**

No. Page Amendment

=====

1. Page 17 *Section: Santa Maria Groundwater Basin, Net Surplus/(Overdraft):* Questions regarding the status of this groundwater basin have led to additional analysis. For more information refer to: *Development of a Numerical Ground-Water Flow Model and Assessment of Ground-Water Basin Yield: Santa Maria Valley Ground-Water Basin.* March 2000. Prepared for the Santa Maria Valley Conservation District by Luhdorff & Scalmanini Consulting Engineers.

2. Page 43 *Section: Juncal Dam and Jameson Reservoir - Following the last paragraph, add the following language:*

The District diverts water from the Santa Ynez River at Jameson Reservoir (Juncal Dam) and infiltration water from the Doulton Tunnel pursuant to the rights granted in the related actions in *Gin Chow, et al. vs. City of Santa Barbara and Montecito Water District*, Case No. 19188 (Superior Court, Santa Barbara County, 1930) as affirmed by the California Supreme Court in *Gin S. Chow v. City of Santa Barbara* 217 Cal. 673, 22 Pac. 5 (1933). District water rights on the Santa Ynez River were again affirmed in *Stephen Jordan et al. v. City of Santa Barbara et al.*, Case No. SM072350 (Superior Court, Santa Barbara County, 1994). Pursuant to these decisions and other claimed rights, as well as a special use permit issued by the U.S. Department of Agriculture, Los Padres National Forest, the District also diverts water from two tributaries of the Santa Ynez River, i.e., Fox Creek and Alder Creek.

3. Page 57 *Section: Water Treatment Plants in Santa Barbara County; Introductory paragraph, fifth line;" treatment processes used in four communities within" should be changed to "treatment processes used in five communities within".*

4. Page 57

*Section: Water Treatment Plants in Santa Barbara County, Following the information for the City of Santa Barbara, insert a new title bar: **Montecito Water District** and add the following language:*

Bella Vista Water Treatment Plant

The Montecito Water District completed construction of the Bella Vista Water Treatment Plant in February 1994. The plant was designed to treat a combination of raw water from Jameson Lake and the Doulton Tunnel at a capacity of 2.2 million gallons per day. Unlike "conventional treatment" facilities, the Bella Vista Plant utilizes a direct filtration treatment process consisting of upflow clarification with mixed media filtration and disinfection. The District offers tours for individuals that are interested in more information regarding this unique treatment process. For more information contact the Montecito Water District at (805) 969-2271.

5. Page 65

*Section: Community Services Districts; Following the introductory paragraph, insert a new title bar: **Casmalia Community Services District**; and add the following language:*

P.O. Box 207
Casmalia, CA 93429
937-4356

The Casmalia Community Services District was formed in 1981 to serve the community of Casmalia in northern Santa Barbara County. The District provides water service for its customers with approximately 65 water connections.
