

1 dated May 24, 2007 orders, among other things, that Application 06-02-026
2 remains open, phase 2 of the proceeding commences as of May 24, 2007,
3 and a separate scoping memo may be issued.
4

5 This decision does not state or imply that further action on this proceeding
6 should be halted because of the waiting for the pending developments
7 concerning the Court settlement agreement, the Nipomo pipeline or for any
8 other reason. Such approval of these exhibits would not necessarily affect a
9 subsequent scoping, but in fact could allow a shortened schedule within such
10 or at least during any hearings if such are even necessary.
11

12
13 Seven of these exhibits are a portion of the adjudication pleadings of Court
14 Case CV770214 including Court rulings and pleading documents authored by
15 GSWC et al. that reflect portions of that Company's knowledge and intent
16 during the Court proceedings.
17

18 This and any subsequent motions and testimony using these exhibits are
19 totally separate and independent of the pipeline issue or any other issues
20 relating to the delays considered in the above referenced decision.
21

22
23 Applicable California Codes, regulations and statutes as well as the
24 Application by GSWC are assumed default exhibits. These pleading
25 documents are accessible on the Santa Clara Superior Court E-filing web
26 site as well as being included with this filing using the below links:
