Dear Bruce Buel:

Thank you for the response to my attached request.

I am interested in the audio that is in “ computer format” / “.mp3 format” (I am not asking for audio that is on a 60/90 minute tape cassettes like was done in the 1990's)

I think I know that 2007, 2008 and 2009 audio has been taken in computer format and I am requesting those years audio's be copied on to a DVD or three. My estimate is that each audio averages about 100 mbs that would be about 47 per DVD

The WIP project has it's roots starting in about 2003 with the MOU with Santa Maria in 2004. I am interested in the 2003, 2004, 2005 and 2006 years but do not know when the tape player was put away and the computer based audio recording was started. My starting point was to request what is on the computer (be that 1,2,3or 4 disks) and then see what is left to work on.

In general I think everyone would like to be able to go back and review parts of the decisions and debates at the foundation of the WIP. Because they are not on the NCSD website I am requesting these copies.

Thank You

Harold Snyder
