Dear Michael LeBrun:

In the "Town Hall" presentation by NCSD on 8/23/11 in the attached slide titled "we are pumping twice the dependable yield"

I would like to know the source of the data in the graph and the values used.

I am making a public record request for a copy of the pages with the values used in the graph for the "urban (inc. golf courses) production" and "agricultural production" for each year 1975 to 2008.

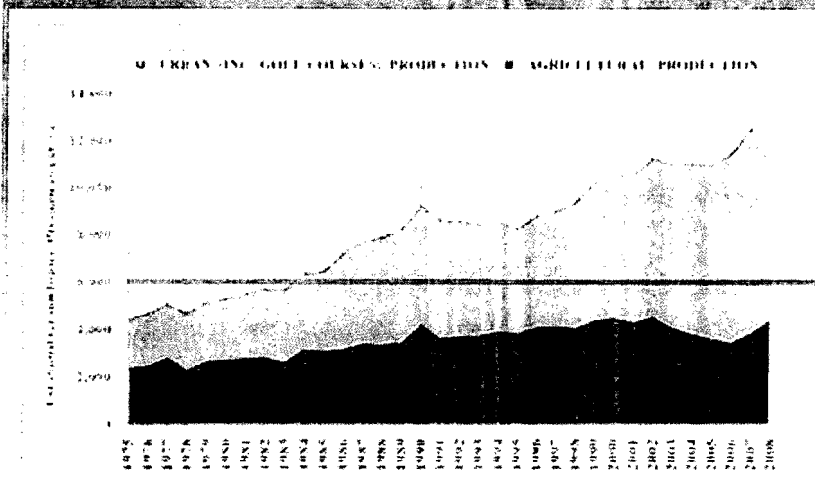

I also am making a public record request for a copy of the page with the value used for the "Dependable Yield"

Thank You

Harold Snyder
